

## Liberty Bags Notice to Customers about CPSIA and California Proposition 65 Compliance

Liberty Bags is committed to verifying that materials used to manufacture our products are safe and meet or exceed all applicable U.S. product safety laws and regulations, including The Consumer Products Safety Improvement Act. Products are tested on a regular basis to ensure product safety and quality.

The Consumer Product Safety Improvement Act (CPSIA) became law in August 2008 and is applicable to certain products manufactured after November 12, 2008. The CPSIA enhances current U.S. product safety laws and primarily covers hazardous substances and flammability requirements for children's products, as well as flammability requirements for general wear apparel. The law also requires the issuance of a General Conformity Certificate (GCC) or Children's Product Certificate (CPC) for all products imported into the U.S. subject to safety regulations enforced by the Consumer Product Safety Commission.

We can confirm that each applicable product manufactured by us meets all applicable testing and labeling requirements under the CPSIA. In addition to the Federal CPSIA requirements the State of California has an additional law commonly referred to California Proposition 65.

According to the State of California's oehha.ca.gov website, Proposition 65, officially known as the Safe Drinking Water and Toxic Enforcement Act of 1986, was enacted as a ballot initiative in November 1986. The proposition protects the state's drinking water sources from being contaminated with chemicals known to cause cancer, birth defects or other reproductive harm, and requires businesses to inform Californians about exposures to such chemicals. As of 2018, there are currently over 900 chemicals that require a warning label that has to specifically include the name of at least one of the chemicals. Our warning, to be in compliance with the law, is below:

**⚠️ WARNING:** This product can expose you to chemicals including Di(2-ethylhexyl)phthalate (DEHP), which is known to the State of California to cause cancer, and Di-n-butyl phthalate (DBP), which is known to the State of California to cause birth defects or other reproductive harm. For more information go to [www.P65Warnings.ca.gov](http://www.P65Warnings.ca.gov).

### This Warning is intended for the following Liberty Bags SKU's:
